

# WUNDERGROUND

Information pack for schools 2025

You will be visiting the Loco Klub.  
It is made of tunnels underground.  
It feels old and exciting.  
You will go on a journey and meet actors  
pretending to be people from history.

The first person is an inventor called George  
Stephenson.  
He is in his workshop.  
He is designing a train.  
He needs your help to finish his engine.

Next you will see a film about a person called  
Sarah Guppy.  
She lived in Bristol more than one hundred  
years ago.  
She was an engineer.  
You can do a building activity with her.

Next you will watch a film about Margaret. She worked on the railways during the war. The men were away fighting in the war, so the women helped the railways keep running. She has a song to sing with you.

Next you will meet a man called Doctor Beeching. He was a politician in England sixty years ago. He wanted to save money by closing lots of railway lines. Can you help put them back together again?

For the last part of the adventure, you will get on board our special train! You will go on an exciting journey. All aboard!
